**(Proxama & Trustonic to run webinar)**

### **INVITATION TO PARTICIPATE IN WEBINAR ON M-COMMERCE SECURITY**

The European usage of contactless payment technologies has reached a critical point of adoption. Visa predicts that monthly transactions will reach over 50 billion by the end of the year and with consumers still questioning the safety of m-commerce transactions, it's now crucial to reassure and educate consumers regarding the security mechanisms in place.

Proxama is pleased to announce that on 5 September 2013 at 15.00 BST/16.00 CEST Proxama's CEO & Founder Neil Garner will be hosting a webinar to discuss security mechanisms in place to protect m-commerce transactions.

At the webinar, the Company's CEO will be joined by Robert Brown, VP Market Development at Trustonic, for an in-depth discussion and Q&A session.

Attendees will be provided with a comprehensive overview of m-commerce payment methods in the marketplace today, with a specific focus on contactless and embedded trusted technologies to protect and assure m-commerce transactions.

This free-to-attend, 45 minute webinar offers participants vital insight into the future of payments and is not to be missed. Spaces are limited, so please register your attendance.
